Professional Experience

PETERSON & CO – Lead Web Developer (July 2022 – Present | Independent Contractor | On-Call, Output Based | Remote | Australia)

- Lead WordPress and Shopify projects from estimation and planning to deployment and ongoing support
- Convert Figma designs into pixel-perfect, fully responsive, cross-browser compatible WordPress websites using Elementor, Beaver Builder, custom WordPress themes, Elementor, Beaver Builder, and PHP.
- Develop custom WordPress and Shopify features, integrations, and functionality based on client requirements
- Perform website migrations, hosting transfers, and domain/DNS configuration and management
- Plan and execute PHP version upgrades, resolve plugin and theme compatibility issues, fix critical website errors, and optimize websites for newer PHP releases.
- Troubleshoot website issues and deliver ongoing website maintenance using ManageWP for updates, backups, and monitoring.
- Perform website quality assurance (QA), cross-browser testing, responsive testing, and post-deployment validation before client handoff.
- Implement technical SEO best practices, Core Web Vitals optimization, schema markup, website security, and performance improvements.
- Manage multiple projects simultaneously while working directly with the business owner on project requirements and execution
- Build responsive, cross-browser compatible websites optimized for desktop, tablet, and mobile devices.
- Leverage AI tools including ChatGPT, Claude, and GitHub Copilot to improve development efficiency, troubleshoot code, review implementations, generate technical documentation, and assist with problem-solving while validating all AI-generated output before deployment.

EASTBOUND DIGITAL – Web Developer (March 2025 – June 2026 | Independent Contractor | Remote | Australia)

- Managed multiple WordPress websites using **ManageWP**, including bulk plugin and theme updates, backups, uptime monitoring, and routine maintenance.
- Conducted ongoing website maintenance, post-deployment quality assurance (QA), cross-browser testing, responsive testing, and functionality validation to ensure websites remained stable, secure, and fully operational.
- Handled WordPress fixes, bug resolution, and website enhancements across multiple client projects.
- Supported technical SEO improvements, Core Web Vitals optimization, and website performance tuning.
- Worked within structured workflows while providing regular progress updates to project managers.

STEWART MEDIA PTY LTD – SEO Web Developer (January 2016 – June 2019 | Full-Time | Remote | Australia)

- Developed and maintained websites using PHP, HTML5, CSS3, XML, JavaScript, and jQuery
- Implemented technical on-page and off-page SEO strategies across multiple websites and industries
- Performed website quality assurance (QA), implemented technical SEO best practices, and validated website functionality based on project requirements.
- Managed technical SEO elements including .htaccess, robots.txt, metadata, and site speed optimization
- Worked across multiple content management and e-commerce platforms including WordPress, Magento, BigCommerce, Neto, and CoreDNA
- Managed and maintained multiple websites simultaneously while ensuring performance, functionality, and search visibility
- Collaborated with distributed teams and participated in daily status meetings to deliver high-quality digital solutions

MYADVICE – Web Developer / Gallery Specialist (July 2012 – Present | Independent Contractor | Remote | USA)

- Manage gallery setup and optimization for new client onboarding, including photo gallery migration, organization, and quality assurance.
- Deliver fully responsive, mobile-optimized website gallery layouts across multiple client projects.
- Develop and maintain responsive front-end website layouts and gallery interfaces across multiple WordPress websites.

- Perform front-end development, WordPress updates, bug fixes, troubleshooting, and website enhancements based on client requirements.
- Develop custom functionality, scripts, and features using PHP, JavaScript, and jQuery based on client-specific requirements.
- Support technical SEO improvements through structured content, optimized gallery assets, and website enhancements.
- Coordinate closely with the Project Manager and Director to align tasks, timelines, and client expectations.
- Maintain clear daily progress reports to streamline project workflows and ensure timely project delivery.

**VARIOUS COMPANIES – Web Developer / Website Manager / Web Designer
(2009 – 2014, USA / Canada / Australia / Sweden)**

- Developed websites using WordPress, PHP, MySQL, HTML5, CSS3, and JavaScript.
- Designed responsive websites, logos, and user interface elements based on client requirements.
- Implemented technical SEO best practices to improve search visibility and website performance.
- Managed hosting environments, domain registrations, DNS configurations, and website security configurations.
- Performed website migrations, maintenance, troubleshooting, and ongoing technical support for multiple international clients.

Education

University of Cebu – BS Information Technology (2003–2008)

- 1st Runner-up – Web Designing Contest (ICS Days 2007)
